Publications	Year
Impaired enhancement of insulin action in cultured skeletal muscle cells from insulin resistant type 2 diabetic patients in response to contraction using electrical pulse ... A Al-bayati, A Brown, M Walker Journal of Diabetes and its Complications 33 (12), 107412	2019
The responses to an in vitro exercise system are impaired in cultured human muscle cells from patients with Type 2 diabetes A Al-Bayati, A Brown, M Walker DIABETIC MEDICINE 34, 76-76	2018
Investigation of the effects Of thrombin and electrical pulse stimulation on metabolic function in cultured human skeletal muscle cells AAH Al-Bayati Newcastle University	2017
Effects of thrombin on insulin signalling and glucose uptake in cultured human myotubes A Al-bayati, D Lukka, AE Brown, M Walker Journal of Diabetes and its Complications 30 (7), 1209-1216	2016
BASIC SCIENCE A Al-bayati, D Lukka, AE Brown, M Walker, A Yang, S Liu, N Cheng, H Pu, ...
